1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Communicated a clear structure at the start of the class; very approachable; incorporates exam questions
- Diligent and actually cares about our learning
Communicates clear structure of class at beginning of class
Clarifies concepts and increases our understanding
- Going through the concepts again in class was very helpful. Also, going through exam-specific revision questions and tips was very useful.
- Good and accessible PowerPoints.
- I think that the slides and explanations in general are very effective. Nothing to change.
- Makes class fun, good structure to class. Ngl my favourite teacher :)
- Quirky attitude to teaching. Makes classes interesting. Much like Professor Ricardo
- Responds positively to class contributions. Explains what is right and wrong about student contributions.
- Very meticulous
- Very organised routine each week. Time well distributed.

1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- Could involve students more by getting us to answer more questions.
- Keep it up! Maybe for if you teach next year, try and implement an expectation that everyone has to contribute every class at least once. It'll be tough in the first few weeks but eventually people will realise that they have to properly prepare for each class and so the class experience will be even better. Still though, you are my best teacher by a long way
- Maybe discuss more exam materials?
- Overall really good, maybe a session on how all of the topics in macro come together for revision (though this may be the topic for next week's class)
