1.7 Please comment below on aspects of this teacher's class/seminar teaching you think were particularly helpful.

- Comprehensive

- Explanations of different hard concepts

- Extremely good teacher - macro is not my natural strength but Luke has helped a very large amount. Good work feedback and goes above and beyond.

- Helpful to go back over last terms content as have forgotten most of it

- Intuitive explanations, thorough discussion of the models - really really happy with this teacher.

- Luke Milsom is a great teacher. His slides are particularly helpful, especially for revision. He also tries to cover everything in a timely fashion and sends us frequent emails on class and office hour changes. He's also good at explaining things and understanding people's questions which are sometimes not very evident. I'd also add that he's usually quite cheerful which makes classes of such a hard content enjoyable. So thanks!

- Luke goes over exam questions and goes over the problem sets very well, he makes the subject more interesting to me due to his energy in the class, I think he is an amazing teacher that genuinely cares about his students academic progress and understanding of the content

- Slides were quite helpful

- Summaries and overviews of topics have been given - which have been extremely helpful.
The way that the techer explains concepts in a step-by-step approach has really improved my understanding. The clear diagrams and explainations have been very useful too.

- Very clear, clearly understands all aspects of the content, knowledgeable and intelligent

- Very specific on feedback, and willing to go the extra mile to help out when asked.
Added more of the implicit content in class. Improved upstanding!

1.7b Please comment below on aspects of this teacher's class/seminar teaching you think could be improved.

- Cold calling

- Could've covered more material from the lecture

- Including other members of class

2.15 Please comment below on aspects of this course you think were particularly good.

- Focus on policy from Ricardo very good - up to date content.

- Problem sets

- Rigorous and intellectually challenging

- The material is interesting

- The topics that we cover are really interesting. It is great how it builds on our previous knowledge and the things that we are learning are all very recent and related to the currency economy.

- Thorough, interesting, good reliance on maths, happy overall.

- Very comprehensive and interesting

- clear slides

- two seperate hand in and discussion questions to complete

2.15b Please comment below on aspects of this course you think could be improved.

- Clearer marking scheme on what's expected of answers during exams

- Feedback on every problem set. This is the crux of what's good and bad about almost every course here.

- Lecture notes...

- Less time on growth models! LT problem sets extremely hard so that I am left unable to complete them in some weeks.

- Pace of certain topics

- The difficult part is connecting what we have learnt in lectures to the problem sets as a lot more maths is involved. Perhaps longer class time would be useful to understand these concepts properly and connecting the key ideas, e.g. 1.5 hours.

- better and clearer marking criteria. I often feel like even though i study and revise this course in depth, i dont know where and how to improve best

- better structure to follow, better alignment of lectures and topics ie starting a new topic at the beginning of every week and finishing it at the end of the week, more consistent amount of work given each week

- summative quizes to keep us constant in our work
